ANSWER

वाणिज्य एवं उद्योग मंत्रालय में राज्य मंत्री (श्री सी. आर. चौधरी)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY
(SHRI C. R. CHAUDHARY)

- (a) Yes, Madam.
- (b) In all 60 Agri Export Zones (AEZ) were notified by the Government till 2004 - 05. State-wise details are at **Annexure-I**.
- (c & d) The concept of Agri Export Zone (AEZ) was introduced in 2001, through EXIM Policy 1997-2001, to take a comprehensive look at a particular produce/product located in a contiguous area for the purpose of developing and sourcing the raw materials, their processing/packaging, leading to final exports. The concept hinged primarily on convergence of existing Central and State Government schemes to take care of financial interventions required at various stages of value chain; partnership among various stakeholders viz. Central Government, State Government, farmer, processor, exporter etc.; and focus on targeted products and areas to identify required policy interventions. All these activities did take place in certain respects in the notified Agri Export Zones. In December 2004, an internal peer review conducted by Department of Commerce concluded that the notified AEZs had not been able to achieve the intended objectives. It was decided that there will be no creation of new AEZs, unless there were strong and compelling reasons. No new AEZs have been set up after 2004. All the notified AEZs have completed their intended span of 5 years and have been discontinued.

(a) & (b) Yes Madam. Some industry associations including those relating to steel have expressed concerns on imports under bilateral free trade agreements with Japan, Korea and ASEAN. However, steel imports from these countries include high grade steel, which are not manufactured domestically.

(c) & (d) The volume of trade, including both exports and imports with these countries has increased since the signing of the bilateral trade agreements. Notwithstanding a slight increase in trade deficit, the domestic industry has benefited from the trade agreements due to cheaper import of raw materials and intermediates from these countries for stimulating value added domestic manufacturing. The trade agreements have adequate trade remedial provisions for dealing with certain surges in imports that might threaten domestic industry.

(SHRI C. R. CHAUDHARY)

- (a) India's exports (merchandise and services) have been continuously increasing since 2016-17 after a steady recovery from the downturn in exports seen in the face of the global slowdown in 2015-16(-11.07%). During 2016-17, exports registered a positive growth of 5.63 % over 2015-16; during 2017-18, it registered a positive growth of 13.31% over 2016-17; during 2018-19 (Apr-Oct), export registered growth of 17.24% as compared to the corresponding period of previous year. The values of India's merchandise, services and total exports along with the percentage change for the last five years and the current year is as follows:

(Value in US\$ billion)

(b): The values of India's overall exports, imports and trade balance along with the percentage change for the last five years and the current year is given below:

(Value in US\$ billion)

Years	Overall Exports	% Change	Overall Imports	% Change	Overall Trade Balance
2013-2014	466.22	--	528.95	--	-62.73
2014-2015	468.45	0.48	529.61	0.13	-61.17

2018-19 (Apr-Oct)*	308.50	17.24	378.28	19.95	-69.78

The data in the above table reveals that trade deficit decreased till 2016-17. However, it increased in 2017-18 and 2018-19 (Apr-Oct) as compared to the corresponding period of previous year. Trade deficit depends upon relative fluctuations in the imports and exports of different commodities due to the global and domestic factors such as demand and supply in domestic and international markets, currency fluctuations, trade agreements between competing exporting countries with export destination countries, non-tariff barriers by export destination countries, cost of credit, logistics costs, etc.

(c): In order to boost India's merchandise and services exports, the Government has taken several measures through new Foreign Trade Policy 2015-20 launched on 1st April 2015, its Mid-

term Review released on December 5, 2017 and other policy measures taken from time to time.

The key measures include:

- i. FTP 2015-20 provides a framework for increasing exports of goods and services as well as generation of employment and increasing value addition in the country, in line with the 'Make in India', 'Digital India', 'Skills India', 'Startup India' and 'Ease of doing business' initiatives.
- ii. The main policy objective is to enable India to respond to the challenges of the external environment keeping in view the rapidly evolving international trading architecture and make trade a major contributor to the country's economic growth and development.
- iii. The policy provides the framework for promotion of exports through schemes of incentives on exports and duty remission/exemption on inputs for export production.
- iv. The Merchandise Exports from India Scheme (MEIS) was introduced in the Foreign Trade Policy (FTP) 2015-20 on April 1, 2015 with the objective to offset infrastructural inefficiencies and associated costs involved in exporting goods/ products which are produced/ manufactured in India. Duty credit scrips issued under MEIS and the goods imported against these scrips are fully transferable. On the demand of the industry, at the time of mid-term review of the FTP in Dec 2017, export rewards under MIES were increased by 2% across the board for labour intensive, MSME sectors, ready-made garments and made ups. Later, rewards to some agricultural products such as Bengal Gram, Milk and Milk Products, Soya de-oiled cake and Non Basmati rice have been provided/enhanced under MEIS for a limited period in the year 2018-19 to boost the exports of these agriculture sector items. As on date, The MEIS scheme covers 8057 tariff lines at 8 digits level, and provide rewards.
- v. The 'Services Exports from India Scheme (SEIS)' was introduced in the Foreign Trade Policy (FTP) 2015-20 on April 1, 2015 for increasing exports of notified services. At the time of mid-term review of Foreign Trade Policy 2015-20, the rates for all the notified services have been increased by 2% for exports with effect from 01.11.2017, leading to additional estimated annual rewards of Rs 1,140 crore to promote exports of notified services.

- vi. An Action Plan on Champion Sectors in Services has been approved on 28th February 2018, whereby, nodal Ministries/Departments of the identified 12 champion services sectors have been directed to undertake sectoral initiatives aimed at, *inter alia*, enhancing services exports.
- vii. Government has been organising various events including the Global Exhibition in Services, Advantage Health Care India, and Higher Education Summit etc. to showcase India's strength in services sector. Government has also been participating in international fairs/ exhibitions relating to services sector.
- viii. In the various bilateral/ pluri-lateral/ multilateral trade negotiations, Government has been seeking commercially meaningful market access for India's services exports.
- ix. The policy includes measures to nudge procurement of capital goods from indigenous manufacturers under the EPCG scheme by reducing specific export obligation from 90 percent to 75 percent of the normal export obligation.
- x. The policy provides issue of Advance Authorisation to allow duty free import of inputs, which is physically incorporated in export product within a specified timeline.
- xi. Interest Equalization Scheme on pre and post shipment rupee export credit has been introduced from 1.4.2015 to help exporters in accessing credit at reduced rates.
- xii. 'Niryat Bandhu Scheme' has been galvanised and repositioned to achieve the objectives of 'Skill India' and trade promotion/awareness.
- xiii. Trade facilitation and enhancing the ease of doing business measures have been taken with special focus on moving towards paperless working. The Government has launched a Single Window Interface for Facilitating Trade (SWIFT) clearances project with effect from 1st April, 2016. The scheme enables the importers/exporters to file a common electronic 'Integrated Declaration' on the Indian Customs Electronic Commerce/Electronic Data Interchange (EC/EDI) Gateway i.e. ICEGATE portal. India also ratified the WTO Agreement on Trade Facilitation (TFA) in April 2016 for enhancing trade facilitation.
- xiv. A new scheme called "Trade Infrastructure for Export Scheme (TIES)" has been launched from 1st April 2017 to address the export infrastructure gaps in the country.
- xv. The Mid-term Review of Foreign Trade Policy 2015-20 launched on 5th December 2017 provides more incentives for export promotion.

- (a) whether the implementation of new agricultural export policy will have a financial implication of over Rs. 1,400 crore and if so, the details thereof;

- (e) whether the Government has minimized export curbs on agricultural products to keep the domestic price under check and if so, the details thereof; and
- (f) whether the Government is considering to remove or has removed all kind of restrictions on export of organic products including organic farm products and if so, the details thereof along with the extent to which this step of the Government is likely to boost agricultural export and help farmers in the country?

ANSWER

वाणिज्य एवं उद्योग मंत्रालय में राज्य मंत्री (श्री सी. आर. चौधरी)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY
(SHRI C. R. CHAUDHARY)

- (a) Implementation of various elements of Agriculture Export Policy will have some financial implications, some of which will be met from within the framework of existing schemes of various Ministries/Departments of Government of India. Hence, it would not be possible to provide an exact estimate of the financial implications of implementation of the new Agriculture Export Policy.

- (b) Yes, madam. Export oriented cluster development across States will be key to ensuring surplus produce with standard physical and quality parameters, which meet export demands. A Product / cluster is identified based on the existing production contributing to exports, exporters operations, scalability of operations, size of export market / India's share, awareness about SPS requirements, and potential for increase in export in short term. A tentative list of identified clusters has been included in the Agriculture Export Policy (Annexure-I). The list can be expanded provided the conditions for formation of cluster are met.
- (c) Yes, madam. The Government has constituted an Inter-Ministerial Committee (IMC) to oversee the implementation of Agriculture Export Policy. The Committee shall oversee the implementation of Agriculture Export Policy and shall monitor the progress made on 'Actionable Points' from the Agriculture Export Policy.
- (d & e) The Agriculture Export Policy, while providing a stable policy regime for boosting exports of agricultural products, aims at identifying the commodities essential for food security of the country. Under extreme price situations, a high-level committee would decide on putting export restrictions on such identified agricultural commodities.
- (f) At present, there are no restrictions on export of organic products. The Agriculture Export Policy provides an assurance that no export restrictions will be put on the export of organic products. It is expected that this step would encourage farmers to take up organic agriculture, thus helping them to move up in the value chain.

Annexure-I

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY
(SHRI C. R. CHAUDHARY)

(a)&(b): The analysis of past data for the period from 2000-01 to 2017-18 reveals that the demand of spices in the country has increased by an annual growth (Compound Growth Rate - CGR) of 5% annually. The export of spices from India has also increased. The details of spices exported from India during last 3 years are given below:

Year	Quantity of spices exported from India (in tonnes)	Value (Rs in lakhs)

Government of India support the producers of spices in the country through its flagship programme, Mission for Integrated Development of Horticulture (MIDH), with the objective of promoting holistic development of horticulture including spices. The Mission programmes are implemented through State Horticulture Mission (SHM) in the various States. The MIDH has components like production and distribution of planting materials, establishment of new garden (area expansion), creation of water resources, promotion of Integrated Pest Management (IPM)/Integrated Nutrient Management (INM), promotion of organic farming, promotion of Good Agricultural Practices (GAP), mechanization, creation of market infrastructure, processing and value addition etc. These programmes are aimed at improving production, productivity and quality of the spices.

(c): The mandate for the production and development of spices other than Cardamom vests with the Ministry of Agriculture & Farmers Welfare (MoA&FW). Several programmes are implemented by MoA&FW for increasing production, productivity and quality of spices in the country under the Mission for Integrated Development of Horticulture (MIDH). The major interventions include area expansion, rejuvenation/replanting of old and senile crops, production and distribution of quality planting materials, Integrated Pest and Disease Management, Integrated Nutrient Management, Organic farming, Mechanization, Integrated Post-harvest Management, Development of market yards, Technology dissemination through frontline demonstration, Human Resource Development etc.

To boost production of cardamom (small and large) in the country, under the Integrated Scheme for Export Promotion & Quality Improvement in Spices and Research & Development of Cardamom being implemented by the Spices Board, various programmes for production of quality planting materials, replanting of old and uneconomic gardens, new planting, irrigation development, improved curing facilities, farm mechanization, etc. are taken up.

Further, government is implementing various programmes to boost export of spices from the country which, inter-alia, include development of infrastructure for common processing facilities in Spices Parks, product development & research for exporters, study of markets abroad, setting up of Quality Evaluation Laboratories to ensure that the quality of spices exported from the country meets quality specifications of consuming countries, assistance to farmers for post-harvest quality improvement in spices, trade promotion activities including participation in international events, promotion of Indian spice brands, conducting training programmes for the stakeholders in Good Agricultural Practices etc.

(d): The Government through the Spices Board is promoting the exporters to set up/upgrade in-house labs for testing the raw materials as well as finished products intended for exports. The Board is conducting mandatory sampling and testing of export consignments of spices for identified countries in Board's Quality Evaluation Laboratories to prevent export rejections by importing countries. The Board is testing the samples of exporters as per the importing countries standards viz. American Spice Trade Association/European Union standards, etc. The activities of these laboratories have helped to considerably reduce the export rejections of Indian spices due to quality and safety issues, thus boosting the overall export of spices from India.

- if so, the details and the outcome thereof along with the corrective measures taken by the Government to improve quality of marble and to boost its export?

ANSWER

वाणिज्य एवं उद्योग मंत्रालय में राज्य मंत्री (श्री सी. आर. चौधरी)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY
(SHRI C. R. CHAUDHARY)

- There are different Exim Codes for marble and related items. Export and import policies are formulated Exim code wise. Export policy of marble and other related items is 'Free'. Import policy for marble and related items, Exim Code wise is as under:

Exim Code	Item	Import Policy	Policy Condition
25151100	Marble And Travertine Crude/Roughly Trimmed	Free	Subject to CIF value of US\$ 200 or above per MT
25151210	Blocks Marble And Travertine		

25151220	Slabs Marble And Travertine	Free	Subject to CIF value of US\$ 40 per Sq. Metre (for maximum thickness of slab of 20 mm).
25151290	Other Marble And Travertine	Free	Subject to CIF value of US\$ 200 or above per MT
68021000	Tiles Cubes Etc	Free	Subject to CIF value of US\$ 40 per Sq. Metre (for maximum thickness of slab of 20 mm).
68022110	Marble Blocks/Tiles, Polished		
68022120	Marble Monuments		
68022190	Others		
68029100	Other Marble Travertine And Alabaster		
68029200	Other Calcareous Stone		

- (b) The quantum and value of marble exported from and imported into the country during each of the last three years and the current year (upto October, 2018), country-wise and value wise is **annexed**.
- (c) to (e): As per the data, overall exports of Marble/ Travertine and related items has been increasing. However, against some specific Exim Codes, there is a decline. The main reasons for decline in exports of some items is constraints in domestic availability of raw materials of requisite quality, domestic and international demand and prices, currency fluctuations, cost of credit, logistics costs and global competitiveness of products.

In order to address these challenges faced by exporters, the Government has taken several measures through new Foreign Trade Policy 2015-20 launched on 1st April 2015, its Mid-term Review released on December 5, 2017 and other policy measures taken from time to time. The key measures include:

- xvi. FTP 2015-20 provides a framework for increasing exports of goods and services as well as generation of employment and increasing value addition in the country, in line with the 'Make in India', 'Digital India', 'Skills India', 'Startup India' and 'Ease of doing business' initiatives.
- xvii. Facilitating Transparency through Ease of Doing Business and IT initiatives:
- Directorate General of Foreign Trade (DGFT) and Special Economic Zone (SEZ) online integrated with Customs ICEGATE.
 - Mandatory documents required for exports and imports reduced to 3 each.
 - Import Export Code (IEC) integrated with PAN and MoU signed with GSTN for complete integration.
 - Electronic bank realisation certificate (eBRC) system shared with 14 States Governments for quick tax refunds.
 - MoU signed with GST Network for integration of E-BRC with GSTN.

- xviii. The main policy objective is to enable India to respond to the challenges of the external environment keeping in view the rapidly evolving international trading architecture and make trade a major contributor to the country's economic growth and development.
- xix. The policy provides the framework for promotion of exports through schemes of incentives on exports and duty remission/exemption on inputs for export production.
- xx. Under the EPCG scheme, procurement of capital goods from indigenous manufacturers is incentivised by reducing specific export obligation from 90 percent to 75 percent of the normal export obligation.
- xxi. Advance Authorisation allows duty free import of inputs, which is physically incorporated in export product within a specified timeline.
- xxii. Interest Equalization Scheme on pre and post shipment rupee export credit introduced from 1.4.2015 helps exporters in accessing credit at reduced rates. Still then, it was observed that MSME sector is facing multiple problems. One of the problems faced by the MSME exporters is access to low cost export finance to make them internationally competitive. Therefore, interest equalization reduces the cost of the credit offered by banks to exporters and serves as a complementary tool for enhancing India's exports. Keeping in view the poor performance of exports from MSMEs and the difficulties faced by them in accessing loan at competitive rates, it has been decided that the MSME exporters would be given extra push by way of enhancing interest equalization rate from 3% to 5%. Accordingly, CCEA in its meeting held on 1.11.2018 has given its approval on increasing the interest equalization rate from 3% to 5% for exports being made by MSME sector under the ongoing Interest Equalization Scheme on pre and post Shipment Rupee Export Credit along with providing operational flexibility to carry out modifications in the scheme from time to time without changing its basic character.
- xxiii. The Government has implemented the Niryat Bandhu Scheme with an objective to reach out to the new and potential exporters including exporters from Micro, Small & Medium Enterprises (MSMEs) and mentor them through orientation programmes, counseling sessions, individual facilitation etc., on various aspects of foreign trade for being able to get into international trade and boost exports from India.
- xxiv. Trade facilitation and enhancing the ease of doing business measures have been taken with special focus on moving towards paperless working. The Government has launched a Single Window Interface for Facilitating Trade (SWIFT) clearances project with effect from 1st April, 2016. The scheme enables the importers/exporters to file a common electronic 'Integrated Declaration' on the Indian Customs Electronic Commerce/Electronic Data Interchange (EC/EDI) Gateway i.e. ICEGATE portal. India also ratified the WTO Agreement on Trade Facilitation (TFA) in April 2016 for enhancing trade facilitation.
- xxv. A new scheme called "Trade Infrastructure for Export Scheme (TIES)" has been launched from 1st April 2017 to address the export infrastructure gaps in the country.
- xxvi. A new Logistic Division was created in Department of Commerce to focus on improving logistic efficiency and enhancing growth.
