BUYER SELLER MEET FOR SPICES, JHARKHAND

Hotel Retreat Continental, Ranchi, Jharkhand

28/01/2025

Indian Spices Sector

India is the leading producer, consumer, and exporter of spices in the world. During 2023-24, India exported 15,39,692 MT of spices and spice products valued at ₹36,958.80 crore (4,464.17 million USD).

Spices are the soul of Indian cuisine, infusing life into every dish with their vibrant flavors and rich history. They have been India's treasure, sought after by explorers and empires, shaping not only its food but also its global significance. Indian spices contribute significantly to the nation's economy and are integral to its cuisine, medicine, and culture. Spices like tamarind, turmeric, ginger, black pepper, cumin, and cardamom have gained global recognition for their unique flavors, medicinal properties, and ability to enhance food preservation.

The significance of Indian spices extends beyond flavor enhancement. They are also integral to Ayurvedic medicine and valued for their therapeutic and cosmetic properties. In recent years, there has been a surge in demand for organic and premium-quality spices, catering to health-conscious consumers worldwide.

Jharkhand's Spice Culture

Jharkhand, a state located in the eastern region of India, boasts a spice culture that is both diverse and distinctive. The state's climatic conditions, characterized by its forested regions, provide an ideal environment for cultivating a variety of spices. Jharkhand is known for its high-quality spices, primarily grown in Hazaribagh, Dumka, Pakur, and Ranchi.

Tamarind is a major forest product of Jharkhand, extensively collected by tribal communities in regions such as Ranchi, Khunti, Simdega, and Chaibasa. It plays a vital role in supporting forest-based livelihoods and

provides a valuable source of income for the tribal population.

Among the key spices grown in Jharkhand is *Herbicia Haldi* (turmeric), renowned for its high curcumin content of 5-7%.

Jharkhand is also a significant producer of coriander, which is cultivated in regions like Kanke, Mandar, and Lapung.

Spices contribute significantly to the livelihoods of Jharkhand's tribal communities, many of whom practice organic and sustainable farming.

Buyer Seller Meet for Spices in Jharkhand

The BSM for Spices in Jharkhand 2025, organized by the Spices Board under the Ministry of Commerce and Industry, Government of India, offers a strategic opportunity to showcase Jharkhand's unique spices, particularly tamarind. Cultivated using organic and sustainable farming techniques, these spices are well-suited to meet global market demands, especially in compliance with Maximum Residue Limits (MRLs).

The event will provide a platform for direct interaction between spice growers and processors from Jharkhand and buyers from across the country. This initiative aims to foster long-term trade relationships, open new market opportunities for growers in the state, and enhance their income prospects through better price realization.

Around 200 participants including FPOs, progressive farmers, farmers' societies, processors and traders from state of Jharkhand as well as exporters from across the country will be attending the event. The list of participants (Buyers/ Exports, Sellers / FPOs) are as follows.
