FOREWORD

I am delighted to share my thoughts with all exporters on the occasion of unveiling of the new Foreign Trade Policy (FTP), 2023. As India is on the path to become a developed nation by 2047, the policy lays down a blueprint to integrate India with the global markets and make it a reliable and trusted trade partner. It calls for building a future-ready India and fulfills Hon'ble Prime Minister Shri Narendra Modi's strategic vision of making it one of the top exporting nations in the *Amrit Kaal*. Along with the recently launched National Logistics Policy, it will serve as a cornerstone to further improve India's trade performance and competitiveness.

The approach of this FTP is to gradually move away from the incentive based regime and create an enabling ecosystem to support the philosophy of 'Aatmanirbhar Bharat' and 'Local goes Global'. The focus on e-Commerce, District level export initiative, easing of guidelines to promote high technology exports, etc. is given additional emphasis in this FTP. This FTP also brings out the need for a collaborative partnership with State Governments to build and encourage export promotion at the district level through awareness, capacity building, outreach and infrastructure up-gradation. This will enable trade & industry to realize its true potential. India has been a bright spot in an otherwise volatile economic scenario globally. I encourage exporters to leverage the Indian growth story through deeper trade engagement and integration with the global markets.

Government led by Hon'ble Prime Minister Shri Narendra Modi has undertaken several measures like opening new sectors for FDI, improving business environment, removing regulatory barriers, recognizing startups and introducing schemes like Production Linked Incentive Scheme to enhance production and productivity, attract investments and create jobs. As a result of its focused efforts, India achieved its highest ever exports of over USD 676 billion in 2021-22, well on the way to achieve USD 750 billion in 2022-23.

With the international trade landscape undergoing a significant change, Government of India is committed to make the country a significant partner in world trade with its inclusion in the global value chains. India has inked 13 Free Trade Agreements along with six limited-coverage Preferential Trade Agreements and is negotiating new trade agreements with the European Union,

the UK, Canada and other countries on a fast-track basis. It is noteworthy that over the next five years, the Government plans to focus on introducing path breaking reforms to strengthen its relations with different countries, which will help in setting a robust foundation to achieve its strategic vision of becoming an export hub globally.

Government of India

As we unveil the new Foreign Trade Policy (FTP) 2023, I am pleased to share with all exporters our vision for integrating India with the global markets and making it a reliable and trusted trade partner. Our policy is aimed at building a future-ready India that aligns with our Hon'ble Prime Minister, Shri Narendra Modi's strategic vision of making it one of the top exporting nations in the *Amrit Kaal*.

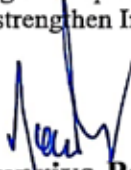

Our approach to the FTP 2023 is to gradually move away from the incentive-based regime and create an enabling ecosystem to support the philosophy of '*Atmanirbhar Bharat*' and '*Local goes Global*'. We are focusing on e-commerce exports, district level export initiatives, and easing guidelines to promote high technology exports. We emphasize the need for a collaborative partnership with State Governments to build and encourage export promotion at the district level through awareness, capacity building, outreach, and infrastructure upgradation. This will enable trade and industry to realize its true potential.

As we are witnessing a significant change in the international trade landscape, we are committed to making India a significant partner in world trade with its inclusion in the global value chains. India has inked 13 Free Trade Agreements along with six limited-coverage Preferential Trade Agreements, and we are negotiating new trade agreements with the European Union, the UK, Canada, and other countries on a fast-track basis.

The FTP 2023 introduces a one-time Amnesty Scheme for exporters to close old pending authorizations and start afresh. We encourage recognition of new towns through "Towns of Export Excellence Scheme" and exporters through "Status Holder Scheme". Our policy is facilitating exports by streamlining popular schemes like Advance Authorization and EPCG schemes and enabling merchanting trade from India.

The FTP 2023 is focused on process re-engineering and automation to facilitate ease of doing business for exporters. It also prioritizes emerging areas like dual-use high-end technology items under SCOMET, collaborating with States and Districts for export promotion, and facilitating e-commerce exports.

As we continue to undertake measures to enhance production, productivity, and attract investments to create jobs, we are confident that India will achieve its strategic vision of becoming an export hub globally. We look forward to working together with all exporters to realize this vision and strengthen India's position in the global trade landscape.

Chapter 3

Developing Districts
as Export Hubs

Developing Districts as Export Hubs

3.0 Objective

To galvanise districts of the country to become export hubs by identifying products and services with export potential in the district, addressing bottlenecks for exporting these products/services, supporting local exporters/manufacturers to scale and find potential buyers outside India with the aim of promoting exports, manufacturing & services industry in the District. This is intended to bring greater level of awareness and commitment regarding exports at the district level, build capacity to create new exporters and identify new markets for the focused products and services. This will also empower MSMEs, farmers and small scale industries to get benefit of export opportunities in the overseas markets. This decentralised and focused approach will shift the focus on district led export growth for self-sufficiency and self-reliance by providing global platform to products and services from the districts.

3.1 District Export Promotion Committees - Institutional Mechanism at District Level

Every district has products and services which are being exported, and can be further promoted, along with new products / services, to increase production, grow exports, generate economic activity and achieve the goal of *AtmaNirbhar Bharat, Vocal for local and Make in India*.

Products/services (GI products, agricultural clusters, toy clusters etc.) with export potential in each District have to be identified and institutional mechanism in the form of District Export Promotion Committees (DEPCs) at the district level is to be created to provide support for export promotion and address the bottlenecks for export growth in the Districts.

Each District shall constitute a District Export Promotion Committee (DEPC) chaired by Collector/DM/DC of the District and co-chaired by designated DGFT Regional Authority with various other stakeholders as its members.

The primary function of the DEPC will be to prepare and implement district specific Export Action Plans in collaboration with all the relevant stakeholders at the Central, State and the District level.

DGFT Regional Authorities will be engaging with all the relevant State and Central agencies to take forward this initiative in each district.

3.2 District Export Action Plans for Each District

The District Export Action Plan (DEAP) may be prepared for each district. 2-3 high potential products/services from the districts may be prioritised and comprehensive plan for their export growth may be prepared. It may include

the support required by the local industry in boosting their manufacturing and exports with impetus on supporting the industry from the production stage to the exporting stage. The DEAPs may also include specific quantifiable targets to be achieved in the short term and long term. These plans may outline the interventions that are required to promote the export of identified products and services from the district. Each DEAP may be deliberated by the DEPC and various stakeholders before it is formally adopted by the DEPC of the each District. DEAP of each District, once adopted, may be published in the public domain on a dedicated Portal.

3.3 State/UT Export Promotion Committees

To synergise the efforts of the Department of Commerce/ DGFT and the State/UT governments in promotion of exports from the State, each State shall constitute a State Export Promotion Committee (SEPC) headed by Chief Secretary of the State. The designated Regional Authority of DGFT shall be the co-convener of the committee.

3.4 Nodal DGFT Regional Authority

Districts of the States/UTs have been assigned to the Jurisdictional DGFT Regional Authority and the nodal RA shall be responsible for the Districts under their jurisdiction for all activities related to Districts as Export Hubs initiative in those Districts.

3.5 Online Monitoring of District Export Action Plans

DGFT would develop an online monitoring portal that may be accessed on the DGFT website to enable the States/ DGFT RAs to upload all information related to the products/services with export potential of every District. The portal may also help in monitoring the progress of District Export Action Plan and DEPC meetings in all the Districts. Each DGFT Jurisdictional RA to be primarily responsible for updating the information/progress made in implementing Export Action Plan for each District under their Jurisdiction. The information and reports may also be available in public domain for the benefit of the exporters.

3.6 Export Promotion Activities in Districts

Support in the form of product/sector specific training and development needs of local industries, dissemination of information through outreach activities including buyer-seller meets, trade fairs, workshops etc. may be provided in each District. The training and development needs of District industries may be identified and trainings may be coordinated with other departments. DGFT RAs through DEPCs may facilitate such buyer-seller meets, exhibitions, trade fairs etc. in the District to encourage the industries to showcase their products/services to the world.

3.7 Implementation of District Export Action Plans

The District Export Action Plan notified by the District Export Promotion Committee in each District may include clear identification of products (goods and services) with export potential in the District, institutional/other responsibilities, specifics of policy, regulatory and operational reform, and infrastructure/utilities/logistics interventions required across the entire chain from producer/farm to the export destination, to cover aspects like production, productivity/competitiveness, improvements required in design, tie up of producers with exporters, aggregation, sorting, testing, certification, packaging, transportation through cold chain or otherwise, import export regulatory formalities, fulfilment of destination countries standards etc. It may also include Identifying bottlenecks/Issues in GI production, registration, marketing and its exports. The plan may also include the support required by the local industry in boosting their manufacturing and exports with impetus on supporting the industry from the production stage to the exporting stage.

Once the plan is formally adopted by the DEPC of the each District, the plan may be implemented by the DEPC by identifying the projects/activities required to be done to promote export growth from the Districts. Convergence of various schemes would be done on priority to build synergy and access the central government and State government scheme funds available for infrastructure development and skill/capacity building activities. Department of Commerce schemes such as Market Access Initiative, Niryat Bandhu scheme etc. may also give priority to district specific needs identified under the District Export Action Plan.

SCOMET: Special Chemicals,
Organisms, Materials, Equipment
and Technologies

SCOMET: Special Chemicals, Organisms, Materials, Equipment and Technologies

10.00 Objective

The general provisions governing the export of dual use items, munitions and nuclear related items, including software and technology viz. SCOMET, are dealt with in this Chapter.

10.01 Brief Background

India is a signatory to international conventions on disarmament and non-proliferation, viz. the Chemical Weapons Convention (CWC) and Biological and Toxin Weapons Convention (BWC). The United Nations Security Council Resolution 1540 obliges all countries to prohibit access of weapons and mass destruction and their delivery systems to non-state actors (in particular for terrorist purposes); and prescribed measures and controls on weapons of mass destruction, their delivery systems and related materials, equipment and technology. India is also a member of the major multilateral export control regimes, viz. the Missile Technology Control Regime (MTCR), Wassenaar Arrangement (WA) and Australia Group (AG); and has harmonized its guidelines and control lists with

that of the Nuclear Suppliers Group (NSG). In consonance with the guidelines and control lists of these international conventions and obligations as well as multilateral export control regimes, India has regulated the exports of dual use items, nuclear related items, including software and technology.

In respect of controls on export of specified goods, services and technology, the Weapons of Mass Destruction and their Delivery Systems (Prohibition of Unlawful Activities) Act, 2005 (21 of 2005) shall apply to exports, transfers, re-transfers, brought in transit, trans-shipment of, and brokering in specified goods, technology or services. These provisions have been incorporated in Chapter IVA of Foreign Trade (Development & Regulation) Act, 1992, as amended in 2010.

10.02 SCOMET List

Export of dual-use items, including software and technologies, having potential civilian / industrial applications as well as use in weapons of mass destruction is regulated. It is either prohibited or is permitted under an Authorization unless specifically exempted.

SCOMET is an acronym for Special Chemicals, Organisms, Materials, Equipment and Technologies. Accordingly, the SCOMET list is our National Export Control List of dual use items munitions and nuclear related items, including software and technology and is aligned to the control lists of the all the multilateral export control regimes and conventions. The SCOMET List has been notified under Appendix 3 to Schedule 2 of ITC (HS) Classification of Export and Import Items, which is available on the website of DGFT.

10.03 Classification of SCOMET categories and Licensing jurisdiction

The SCOMET List is divided into nine categories of items from Category 0 to Category 8. However, Category 7 is presently 'Reserved' and has not been populated. The broad classification of different categories under SCOMET List and their jurisdictional licensing authorities are tabulated as under:

Table: SCOMET Categories and Licensing Jurisdiction

SCOMET Category	SCOMET items	Jurisdictional Licensing Authority	Remark
