THE PLASTICS EXPORT PROMOTION COUNCIL

(Sponsored By The Ministry Of Commerce & Industry, Deptt. Of Commerce, Government Of India)

Ref. No.: Plexh/Cir/ 566

01/10/2025

To,

All Members of Plexconcil/ COA Members

Dear Sir/Madam,

Subject: Implementation of India-EFTA TEPA

This is to inform you that the India-European Free Trade Association (EFTA) Trade and Economic Partnership Agreement (TEPA) has come into force on 01 October 2025.

TEPA is a modern and ambitious agreement signed on 10th March 2024 at New Delhi. For the first time in any Free Trade Agreement (FTA) signed by India, TEPA incorporates a commitment on investment and job creation.

EFTA is a key economic bloc in Europe, other than EU & UK. Among EFTA countries, Switzerland is the largest trading partner of India followed by Norway. The TEPA will empower India's exporters by providing access to specialized inputs and create conducive trade and investment environment.

Further information about this agreement can be accessed from: [India-European Free Trade Association Trade and Economic Partnership Agreement \(TEPA\) to come into effect on 01 October 2025](#)

According to a PLEXCONCIL analysis, there is USD 8.02 billion worth untapped export potential in plastic sector to EFTA countries.

Members may refer the **Annexure** to this Circular to learn more about export potential to EFTA countries.

We hope this will be useful to you to explore market potential in the EFTA countries.

Regards

Team Plexconcil

Annexure: Key Gains Expected under India-EFTA TEPA

The annual import of plastic products by the EFTA countries (Iceland, Norway, and Switzerland)* is USD 17.97 billion, of which India supplies hardly USD 55.8 million or 0.3%. Considering India's export capacity, there is USD 8.02 billion worth untapped export potential to EFTA countries. Switzerland, Norway and Iceland have given duty-free market access for most of the Indian plastic goods under the India-EFTA TEPA. Therefore, there is scope for Indian exporters to grow their presence in the EFTA market, especially for goods with untapped export potential.

Maximum export potential is in plastic raw materials (USD 1.65 billion), followed by Consumer & Houseware products (USD 1.4 billion), Plastic films & sheets (USD 1.3 billion) and Medical items of plastics (USD 1.2) billion. India has hardly 0.1% - 0.2% market share in these products in EFTA countries, which implies untapped export potential.

HS Code-wise Potential products

India has USD 8.02 billion worth untapped export potential to EFTA countries; Of these, there are 93 products (at 6-digit HS code) where export potential is more than USD 10 million. Some of these top products are: Needles & Canulae, Medical Instruments & Appliances, Plates & Sheets, Switches, Sacs & Bags, Packaging Articles, Handbags and so on. The following table provides list of these 93 products along with India's current exports to EFTA, EFTA's world imports and untapped export potential in these products.
