Export of **Consumer & houseware products** declined by 10.1% in March 2023 on account of lower sales of Tableware and kitchenware of plastics (HS code 392410); Other household articles of plastics (392490); Hand bags and shopping bags of plastics (420222); Jewellery box and similar box of plastics (420232); and Safety headgear (650610). Exports of Toys of plastics (95030030) has been showing a significant decline since May 2022 due to change in the HS code of Toys of plastics resulting in failure to capture the correct value of its exports from India.

Cordage, fishnets & monofilaments exports were lower by 14.6% in March 2023 due to a decline in sales of Other binder or baler twine of polyethylene or polypropylene (560749); and Made up fishing nets (560811).

In case of **FIBC, woven sacks, woven fabrics, & tarpaulin**, exports in March 2023 fell by 23.6% as Indian exporters reported a decline in sales of Sacks and bags of plastics (39232990); and Flexible intermediate bulk containers (630532). Exports of Flexible intermediate bulk

containers from India had hit a thirty-month low in February 2023. Indian exporters have also mentioned about a decline in price realisations for these products in the international market and competition from Türkiye.

Export of **Floor coverings, leather cloth & laminates** declined by 9.9% during March 2023 on account of lower sales of PVC floor coverings (391810); Decorative laminates (482390); and Other textile fabrics of plastics (59039090). Indian exporters have mentioned about removal of Generalized System of Preferences (GSP) in the EU since January 2023.

Export of **FRP & Composites** was down by 14.4% due to lower sales of Articles of plastics and articles of other materials of heading 3901 to 3914, n.e.s (39269099).

Export of **Human hair & related products** increased by 65.4% due to higher sales of Human hair unworked (050100) and Human hair, dressed, thinned, bleached or otherwise worked (67030010). The high growth rate achieved in March 2023 is an effect of low base of export in March 2022. It may be noted that export of Human hair unworked was placed under restricted category by the Directorate General of Foreign Trade in the last week of January 2022.

Export of **Medical items of plastics** witnessed an increase of 8.9% in March 2023 due to higher sales of Spectacle lenses of polymers (900150); and Catheters (90183910).

Export of **Miscellaneous products & items nes** fell by 6.3% in March 2023 due to lower shipments of Polypropylene articles, not elsewhere specified (39269080).

Packaging items - flexible, rigid export declined by 13.5% on lower sales of Sacks and bags of polymers of ethylene (392321).

Plastic films & sheets export were lower by 17.6% in March 2023 due to a slide in sales of Self-adhesive sheets and films of plastics (391910); Rigid and flexible sheets of polymers of propylene (392020); Flexible sheets and films of polyethylene terephthalate (39206220) and Flexible & metallised sheets and films of plastics (39219094). Apparently, plastic films & sheets manufacturers in India have slashed production amid sluggish global demand and high inventory. This product segment is also facing headwinds as several new lines have been operationalized both in the BOPP and BOPET segments in the last 1.5 years.

Export of **Plastic pipes & fittings** contracted by 20.2% due to lower sales of Pipes and tubes of polymers of vinyl chloride (391723); Other tubes and pipes (391732) and Fittings (391740).

Plastics raw materials export was lower by 12.7% in March 2023 due to a decline in sales of Polyethylene terephthalate (390761, 390769) from India. It may be noted that the prices of Polyethylene terephthalate in India have been on an upswing since January 2023 which may have resulted in shift in focus from exports to domestic sales.

Export of **Writing instruments & stationery** witnessed an increase of 4.9% in March 2023 due to higher sales of Ball point pens of plastics (960810). This product segment has had a fantastic year in 2022-23.
